

# Ongoing Professional Performance Evaluation; Process Improvement Utilizing Web-Based Tools

## Purpose:

To show that the OPPE process at this institution could be improved by creating a web-based database tool with electronic forms.

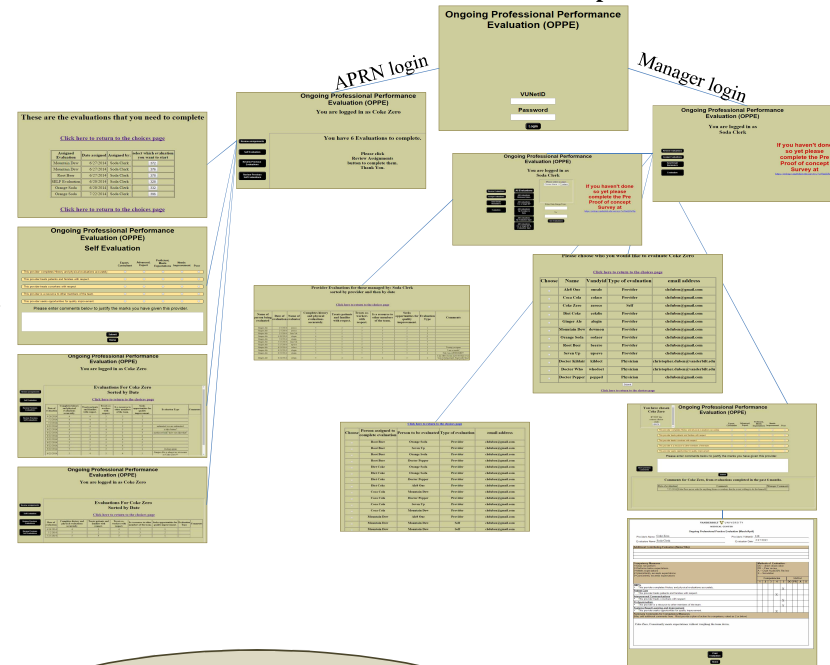

### Process prior to Proof of Concept

### Creation of Proof of Concept

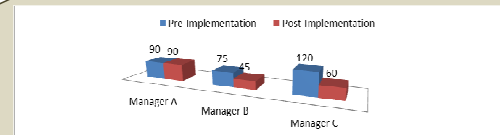

- Created a web-based database
- Created electronic forms for evaluations
- Created a web-based portal to access the OPPE system
- Secured access using institutional login ID:
  - Data security
  - Role based access

### Proposed Process Proof of Concept

## Impact of results on Practice

- OPPE process *can* be streamlined
- Potential for longitudinal and historical comparison
- Reduction in manager's time spent on OPPEs

Number of minutes managers spent completing each APRN evaluation
